

ULTIMATE TRUCK GEAR

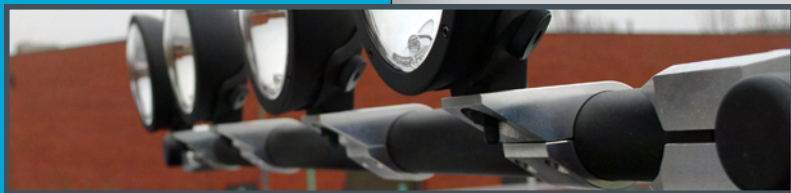

UTG - TACRACK™ (Tactical Rack System)

You've long thought about getting a rack for your ride, but didn't want a traditional rack that was designed for work only.

Yeah, you could put a kayak or camping gear on a traditional rack designed for work only, but maybe that's not the image you want. Everyone's truck is unique to the individual who owns it. Whether you use your truck for work or play, or both, the TACRACK™ from Ultimate Truck Gear is for you. And yes, you can still put a ladder on it!

- Configures To YOUR needs
- Start with a set of cargo rails and imagine the rest
- Greatly increases the capability of your vehicle
- Transforms your work truck into a sport rig with a turn of a wrench
- Billet Aluminum Clamps
- 2.0" Stainless Steel Tubing available as a complete kit or sold individually (Standard tubing available just about everywhere or purchase direct from UTG)
- Stainless Steel Hardware
- Removable tire carrier available (accommodates standard and oversize tires)
- Billet aluminum mounting brackets for auxiliary lighting are also available
- Billet aluminum Antenna mounts also available
- 2" tubing allows for concealing wires
- Clamps and tubing available in a black powder coat finish (additional cost)

A Multitude of Options!

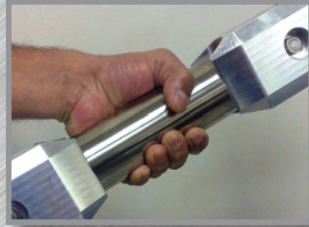

You're only limited by your imagination as there are literally hundreds of configurations.

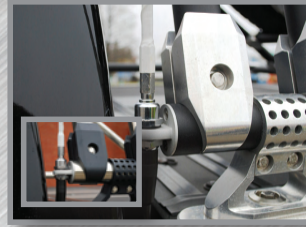

The UTG-TACRACK™ From UTG - The ULTIMATE in Rack Systems Completely Custom, Completely Unique!

Removable tire carrier. Tire can be mounted as shown on down tubes. Or on any two parallel rails.

Standard 2" Stainless Steel Tubing is offered as standard. All clamps are manufactured from heavy billet aluminum.

Clamps and tubing available in black powder coat finish or standard stainless steel tubing and bare aluminum clamps.

Billet aluminum light mounts available, fits all standard 2" tubing. The UTG-TACRACK™ allows clean look with the ability to hide all wiring within the tubing!

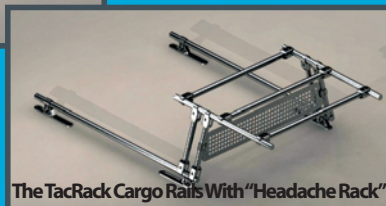

UTG-TACRACK™ (Tactical Rack System)

"We call it the Tactical Rack System "TacRack" because the only limit to its functionality is YOUR imagination"
